

The MegaPictoFramus™

The next time you need a large reference angle get the picture with a MegaPictoFramus™. As the pictures show the “MPF” is a very BIG frame of reference, necessary for many applications.

There are 2 sizes (4’ or 7’8”), 3 colors (Black, White or Gray) and they come with either Fractional or Metric graduations. Graphics incorporate Optirectilinear® markings for easy identification even up to 40 feet away. Both sizes are light weight, 2lb and 4lb respectively, and fold up into a compact rectangle 3¼”w x app 4ft long. All components are corrosion resistant and/or water proof making them practical for outdoor use.

Optional equipment includes a black ballistic nylon carry case with a shoulder strap and/or a pair of feet to prop the “MPF” into an upright stance. Each case can hold up to (3) 4ft MPF’s. As a special option, with the 4ft MPF’s you can mix or match the Yellow and White colors or reading styles and place them one on each side of the same unit. (Gray excluded)

Example: Black-on-White and Black-on-Yellow fractional, order #MPFF-Y048/W048, with an upcharge. Cost of \$20.00 over the list price, (+\$40 for the 7’8”).

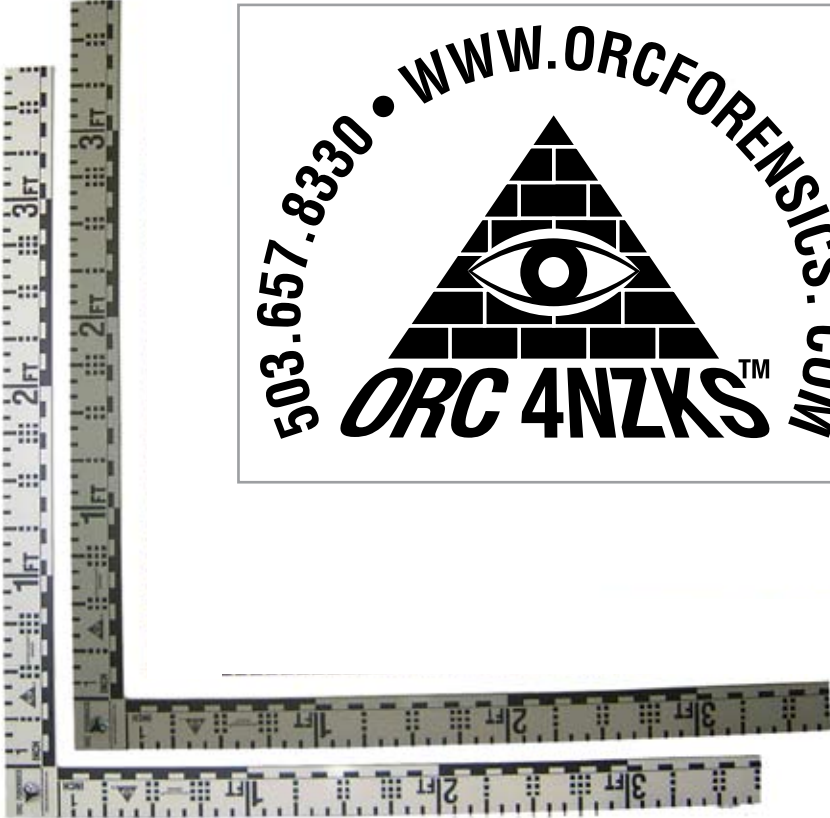

Note: You can also order a MPF as a SET. Just place an “S” after the part number.

Example: #MPFF-B048S, of which you get (1) angle with a Carry Case and a Pair of feet for \$ 88.00.

Color	Fractional		Metric		OPTIONS	
	4' x 4'	7'8" x 7'8"	122cm x 122cm	234cm x 234cm	CARRY CASE	PAIR OF FEET

Price	\$ 65.00 ea.	\$ 135.00 ea.	\$ 65.00 ea.	\$ 135.00 ea.		

Note: Optirectilinear® is a registered Trade Mark of the Oregon Rule Co. and is defined as follows: Linear graduated rules with a corresponding checkered pattern that are visible beyond normal distances. All rights reserved.

MPF Stringer Rule

This is a compact frame-of-reference rule that fits into a pocket yet unrolls to an impressive 3¼” wide by 90” (2.25 Meter) length. Each end has easy grip handles that include a hole for securing it to fixed objects or even hanging vertically. They are printed with our MegaPictoFramus graphics that are bold and easy to read up to 40 feet away. Also, Black/Yellow colors provide optimum contrast for any photo.

Grips are made of impact resistant plastic with stainless steel screws. Rule itself is made of a tough stretch resistant vinyl impregnated fiber creating a totally waterproof unit. Each comes in a convenient zip-loc bag for storing. Available with Fractional or Metric graduations.

Part Number	Style	MSRP
MPFSF-YW090	Fractional	\$25.00
MPFSM-YW225	Metric
